Projects Handled

✓ **AIM (Automation Integration Migration)**

This is a GIS data Migration Application for a big Client AT&T. I have created the total UI for this application keeping in mind that there is huge database process behind the app and that's why I have used Asp.Net Ajax with JQuery to keep the process smooth with partial page update.

Framework used: Asp.Net 3.5, Asp.Net Ajax, JQuery, XSLT.

Software used: Adobe Photoshop, Adobe Illustrator for icon design and vector graphics. Adobe flash for welcome video animation and tutorial. Adobe Indesign for white papers and marketing material.

Team Size: 10 Software Engineer and 1 UI developer

✓ **Business Intelligence for GIS.**

Currently working on this feature rich web application. Basically this is data visualization application which using customer data and adding Intelligence to them. I have created a feature rich Interface using XHTML, CSS and JQuery library. It contains lots of feature like widget drag and drop sorting of data, filtering data and lot more. For visual representation of data we have used fusion chart.

Framework used: Asp.Net 3.5, Asp.Net Ajax, JQuery, XSLT.

Software used: Adobe Photoshop, Adobe Illustrator for icon design and vector graphics. Adobe flash for welcome video animation and tutorial. Adobe Indesign for white papers and marketing material.

Team Size: 2 Software Engineer, 2 Business Analyst, 1 UI designer.

✓ **Cricket360.com**

It's a cricket web portal with Joomla open source backend with MySQL database. I have created the UI designing for the front end.

Framework used: PHP, **Joomla**, JQuery, XHTML, CSS.

Software used: Adobe Photoshop, Adobe Illustrator for icon design and vector graphics. Adobe flash.

✓ **FranchiseIndia.in**

It's a franchise business web portal. I have created the UI designing for the front end. I have used Ajax to load the page without page refresh and also used flash for home page animation.

Framework used: PHP, Ajax, XHTML, CSS.

Software used: Adobe Photoshop, Adobe Illustrator for icon design and vector graphics. Adobe flash.

✓ **FranchiseIndia.org**

It's a franchise organization web portal. I have created the UI designing for the front end. I have used flexible UI with some visual effects with Adobe Spry framework.

Framework used: PHP, Ajax, XHTML, CSS, SPRY, XML.

Software used: Adobe Photoshop, Adobe Illustrator for icon design and vector graphics. Adobe flash.

In my UI design career I have done lots of successful projects for foreign clients as well as some Indian Clients. It's really a tough job to describe all the works in a little piece of paper.
